
Getting Started

The journey begins at our [Main Landing Page](#). This is your hub for all high-grade custom vinyl services.

For Customers: The "Print Game" Catalog

To start an order, head to the **Catalog**. You'll see a variety of products, each representing a pre-defined print size.

- **Selecting a Product:** Browse through the options and click on the one that fits your needs.
- **Customization:** Inside each product, you can choose your specific **Printing Material** and upload your artwork.
- **Visual Cue:** When you click "**Add to Cart**," look at the top right of your screen. The number on the **Cart Icon** will increase to confirm your item is ready for checkout.

The Custom Design Service

Sometimes a project needs a professional touch. We offer an optional **Custom Design** service.

- **Professional Help:** By toggling this on, you are requesting help from our in-office designer to ensure your vision comes to life perfectly.
- **Important Note:** If you upload an image that has the wrong dimensions for the size you picked, we may reach out to offer this service at an hourly rate to ensure the final print looks exactly as you intended.

Requesting a Quote & Payment

Once your cart is ready, proceed to the checkout.

1. **Mandatory Info:** You **must** provide a valid **Email Address**. This is our primary way of sending your confirmation and official quote.
2. **Upload Artwork:** In the checkout area, look for the **dashed box**. Click it to easily pick a picture or design file from your phone or computer.
3. **The Success Screen:** After you hit "**Request Official Quote**," stay on the page. A confirmation screen will appear with vital instructions.
4. **Finalizing:** You must complete the payment and send us confirmation as instructed on that screen. **Production will not start until payment is verified.**

Tracking Your Project

You can check the status of your project at any time using our [Public Order Tracker](#).

- **Finding your ID:** Check your confirmation email. It contains a direct link that will automatically load your specific order details for you.
- **Live Updates:** This page will show you if your order is "Pending Quote," "In Progress," or "Ready for Pickup".

Manager's Guide (Internal Only)

Managers can access the internal system at the [Dashboard Link](#). This is a protected route designed for business owners and managers.

The MasterDashboard

Once logged in, you will immediately see the **MasterDashboard**, which displays a complete list of every order in the system.

Common Manager Tasks:

- **Update Payment Status:** Click "**View Details**" on any order to log internal payment notes and flip the "Paid" toggle once funds are verified.
- **Update Order Status:** Use the **Status Badge** inside the order details to keep the customer informed. Changing this to "Ready for Pickup" or "Complete" will update the customer's tracking view in real-time.

Quick Navigation Tips

- **Action Buttons:** Look for **Cyan** buttons; these are your primary "Go" or "Action" buttons throughout the app.
- **Navigation:** Click the **MaximusVINYL** logo at any time to return to the catalog and start a new project.
